For Sale : **€ 43,000**

Description
A generous agricultural field of 24,750 m² lies a short way from the centre of Kato Koutrafas, in an open countryside setting in the Nicosia district. The ground is even throughout, which gives a straightforward surface for cultivation, and the land sits within agricultural zoning.

The field has an irregular shape. It has no direct road access of its own, although a road passes a short distance away. The northern part of the field lies within the buffer zone. This is a sizeable, level stretch of farmland on the edge of the village.
