

For Sale, Land, Field, Nicosia, Psimolofou, 15,970m²

Open, level residential land with village life
around it and...

For Sale : **€ 160,000**

Description
Open, level residential land with village life around it and Nicosia within easy reach. This generous field in Psimolofou covers 15,970 m² and has direct road access onto a main route, so getting to the neighbouring villages and the city is uncomplicated.

The village centre is a short drive away. Schools, supermarkets, cafés, restaurants and green spaces are all close by, and a medical centre, sports venues and the motorway are a little further on. The setting pairs authentic Cypriot village life with practical, connected living.

The land lies in a residential zone, and its level surface gives plenty of room to plan. It is considered suitable for division into plots or for a larger residential development, a flexible canvas for shaping something lasting in a growing village setting. This sale is for a one-quarter share of the land.

Generous space, level ground and a roadside position close to the capital make this a versatile piece of land with real substance.
