Description
In Kato Koutrafas, in the Nicosia district, two agricultural fields together form a single holding of 38,415 m². The land has an irregular shape and a sloping surface. It fronts a public road, so it has direct road access. Its agricultural zoning suits farming and planting. The village centre is a short drive away, and the Astromeritis–Evrychou motorway is within easy reach. High voltage cables cross the land. The two fields are offered together as one sizeable piece of agricultural ground.
