For Sale : **€ 25,000**

Description
Covering 11260 m² of open Nicosia countryside, this agricultural field for sale in Mitsero is suitable for both livestock and agricultural use. That makes it a versatile piece of land for keeping animals or working the ground. The surface slopes and the shape is irregular, and the field is reached by road.

The Mitsero village centre and a petrol station are a short drive away. So are the neighbouring villages of Kalo Chorio Oreinis and Agios Epifanios Oreinis, with the motorway network further out in the wider region. A generous field with room for livestock and crops alike.
