Description
Village life in Kapedes sets the tone here: a sizeable residential field of 5,017 m², close to the heart of the community in the Nicosia district, with Tamasos Lake a short drive away.

The land has a regular shape and a sloping surface. Its residential zoning leaves room for a home, within the everyday rhythm of a village where cafés, shops and green spaces are never far off. The land has no direct road access.

With the village centre close at hand and the lake not far beyond, this field offers a setting rooted in village life, an authentic alternative to the pace of the city.
