Authentic Cypriot village life sets the tone for this Cyprus...

For Sale : **€ 15,000**

Description
Authentic Cypriot village life sets the tone for this Cyprus field in Vyzakia, a residential plot in the Nicosia countryside where the village centre, schools and local services are all a short drive away. The setting is led by the landscape rather than dense development, with the neighbouring villages of Nikitari and Pano Koutrafas close at hand.

The field covers a generous 9365 m², with an irregular outline and a sloping surface that gives it a natural, varied feel. Its residential zoning points to a home in surroundings with a strong local identity, where village life sets the pace.

Further afield, restaurants, cafés, supermarkets and a park are within a drive, and the celebrated painted church of Panagia tis Asinou is a pleasant outing away. This sale is for a one-quarter share of the field.

A residential setting in Vyzakia that offers a slower pace and a real connection to the authentic side of Cyprus.
