Description
A sizeable agricultural field in Mitsero, set in open countryside in the Nicosia district. At 10703 m², it offers plenty of room for farming or planting. The ground is sloping and irregular in shape, with the field reached across neighbouring land rather than from a road of its own.

The land lies in the farming countryside around the village, a short drive from the Mitsero village centre and the neighbouring communities of Agrokipia and Agioi Iliofotoi. Main roads and the motorway network are a drive away. This is a versatile, generously sized piece of agricultural land.
