

For Sale, Land, Field, Nicosia, Lakatameia, Agios Nikolaos, 10,341m²

Set within an established suburb with a neighbourhood feel,...

For Sale : **€ 68,000**

Description
Set within an established suburb with a neighbourhood feel, this residential field in Agios Nikolaos offers level ground at a practical Nicosia address. The residential zoning points to a home, and the land itself is uncomplicated. An even surface and direct road access make it easy to picture plans taking shape.

Everyday life is well served. Schools, supermarkets and shops, cafés and restaurants are all a short drive away, along with a medical centre or pharmacy, parks and green spaces, and sports venues. Main roads and motorway junctions are close at hand, so the centre of Nicosia and neighbouring villages such as Kato Deftera are easy to reach. Bus stations are nearby too.

Lakatameia brings together a settled residential setting and the conveniences of the capital, giving this land a sensible footing for the future. This sale is for a one-ninth share of the field.

A welcoming suburb, level land and straightforward access: an appealing balance of location, function and flexibility in the heart of Lakatameia.
