Description
A Cyprus field in Mitsero, set in open countryside within the Nicosia district. The land covers 5686 m² of agricultural ground, an irregular plot with a sloping surface, suited to farming or planting in line with its agricultural zoning. The field is landlocked, with no direct road access. Mitsero village centre and the neighbouring villages of Agioi Iliofotoi and Kato Moni are a short drive away, and the main roads and the Astromeritis–Evrychou Motorway are within reach. This is a versatile piece of agricultural land of a good size in a rural Nicosia village.
