For Sale : **€ 14,000**

Description
A field of 7024 m² in Orounta, set in open countryside in the Nicosia district. The land has a regular shape and a sloping surface. It lies in an area set aside for farming and animal breeding, which suits livestock or general agricultural use.

The field is landlocked and has no direct road access. The village centre and the neighbouring villages of Potami and Peristerona are a short drive away, and the motorway network towards Nicosia can be reached by car. This is a well-proportioned piece of Orounta farmland, away from dense urban development.
