

For Sale, Land, Field, Nicosia, Latsia, Agios Georgios, 7,442m²

Olive trees dot this level field in Agios Georgios,
one of L...

For Sale : **€ 34,000**

Description
Olive trees dot this level field in Agios Georgios, one of Latsia's most convenient neighbourhoods. It sits right beside the Nicosia to Limassol motorway, so both cities are within easy reach. Despite that ease of travel, the setting keeps an established suburban feel, with schools within walking distance.

The land is flat and almost rectangular, an uncomplicated shape that makes it easy to picture what could follow. It has direct road access. Its zoning allows a flexible mix of uses: homes, offices, showrooms, sports and leisure facilities, and other specialised projects.

Everyday life is close at hand. Supermarkets, shops, cafés, restaurants, a pharmacy, parks and sports venues are all a short drive away, as are public service offices and bus stations. Neighbouring Lakatameia is just as near, and the motorway junctions put the rest of the island within reach.

This sale is for an 11/165 share of the field. Level ground, mature olive trees and a location this well connected in Latsia make a versatile proposition on the edge of the capital.
