Description
Beautiful natural surroundings set the tone for this residential field on the market in Kannavia, Cyprus, just a little way from the heart of the village. It offers authentic Cypriot village life, a slower pace and the chance to plan a home in a landscape-led setting away from dense urban development.

The land extends to 1933 m² on residential land, so a family home here is a natural fit. It has direct road access, which keeps everyday comings and goings simple. Its irregular, sloping shape gives it an honest, unpretentious character that suits its setting.

Daily needs are well covered. Supermarkets, shops, cafés, restaurants and a medical centre or pharmacy are a short drive away, as are the neighbouring villages of Agia Eirini and Saranti and nearby parks and green spaces. A school, petrol stations, public service offices and the main roads are within a drive, so Nicosia and the wider district stay within easy reach.

This sale is for a half share of the field. What stays with you is the setting: open nature, traditional village charm and a quieter rhythm of life, all on residential land in Kannavia.
