Description
This agricultural field for sale in Kampia covers 21,786 m² of hillside in an open countryside setting, well away from dense urban development. The ground slopes and the shape is irregular, giving a sizeable stretch of rural land within the Kampia area of the Nicosia district. The land is zoned for agricultural use.

Kapedes, Politiko and Filani are a short drive away, as is the village centre. Main roads and a petrol station are within reach, and the Nicosia–Limassol motorway lies in the wider region.

This is a sizeable, uncomplicated piece of Cypriot countryside on a hillside.
