Description
A generous field of 8027 m² in the Kapedes countryside, set on land zoned for farming and animal breeding. Used as a livestock field, it has a gentle slope and an irregular outline, giving open, versatile ground for grazing or farming.

The village centre and the neighbouring villages of Kampia and Kataliontas are a short drive away, and the Nicosia–Limassol motorway is within reach. The field has no direct road access.

It is a sizeable, uncomplicated stretch of open agricultural land in Kapedes.
