For Sale : **€ 18,000**

Description
Authentic Cypriot village life sets the scene for this residential field in Mammari, close to the heart of the village and its traditional charm. Here the pace is slower, the community close-knit, and the setting has a strong local identity of its own, offering a genuine alternative to city or resort living within the Nicosia District.

The land is generous in size, with an even surface that is easy to walk and appreciate. Its irregular outline gives it a character of its own, and its residential zoning reflects the general use of the area: homes set among village surroundings. The field has no direct road access.

For anyone drawn to the uncomplicated side of Cyprus, the appeal is simple: open, level ground in a village setting, a short distance from the everyday life of the centre. This sale is for a half share of the field.

A place rooted in Mammari's village character, with the centre of the community close at hand.
