For Sale : **€ 16,000**

Description
On the edge of Aradippou, in the Apostolos Loukas quarter, this industrial field sits right next to the motorway, with the town of Larnaca a short drive away. It is a setting shaped for business, where coming and going is part of daily life.

The land is flat and regular in shape, so it is simple to read and straightforward to plan around. It fronts a public road along one side, which gives it direct road access, and the whole field covers 9,377 m². Most of it lies in an industrial zone, suited to business and industrial use. Part of the land falls within a protection zone.

Picture an industrial venture taking shape on level ground, with the motorway alongside and Aradippou's local services close at hand for the working day. The sale is a 1/10 share of the field.

Level land, a road frontage and a place beside the motorway give this corner of Aradippou a clear, practical appeal.
