Description
Listed in Palaiometocho, in the Nicosia district, this field covers 2554 m² of agricultural land in an open countryside setting, away from dense urban development. The ground has an almost regular shape and an even surface, which makes it straightforward to plant and work. A stream runs through part of the land, and the area around it is known for its natural surroundings.

The neighbouring village of Agioi Trimithias, petrol stations and the main roads are a short drive away, and the motorway network is within easy reach. It is a well-proportioned, even field for farming, with a stream crossing part of it.
