Description
A field on rising ground in Kaliana, this 3011 m² parcel of agricultural land lies in an open countryside setting a short drive from the village centre. Its surface slopes and its shape is irregular. The land is zoned for farming and planting. The field has no direct road access.

The neighbouring villages of Sinaoros and Temvria are a short drive away, as are the main roads and petrol stations. This links the land to the wider Nicosia district. This is a versatile piece of agricultural land in the countryside around Kaliana.
