Description
Set in the farmland of Astromeritis, in the Nicosia district, this agricultural field covers 1,673 m² of even ground in a neat square shape. It is a practical layout for planting or cultivation. The neighbouring villages of Potami and Pano Koutrafas lie a short drive away.

Most of the land is zoned for agriculture, while part of it falls within a protection zone. A pylon stands on the field and high-voltage cables cross it. The land has no direct road access. It is a level, regular piece of farmland within the Astromeritis community.
