Description
Lythrodontas sets the scene here. It is a village in the Nicosia district, with its centre a short drive away and neighbouring Mathiatis close by as well. Within this village setting lies a large residential field of 11,028 m², its irregular outline and sloping ground giving it a natural, unforced character.

Residential zoning means there is room for a home here, with generous land around it. The ground rises and falls rather than lying flat, so the land has a shape of its own to work with. Daily needs stay within easy reach, with supermarkets and shops a short drive away.

The land has no direct road access.

This is a sizeable piece of sloping residential land in the Lythrodontas area. It is a place to picture a home of your own, with the village a short drive away.
