For Sale : **€ 4,000**

Description
At the very centre of Mosfili, a small village community in Nicosia district, this residential field sits within the everyday rhythm of village life, a short walk from the village church. It is a setting with a strong local identity, where the pace is set by the community around it.

The land covers 1,030 m², with a smooth surface and an irregular outline. Its residential zoning gives it a clear and simple purpose: room for a home in the heart of the village. The land has no direct road access.

The countryside around Mosfili adds to its charm. Pomos Reservoir is a drive away for time among nature, while neighbouring Mansoura is only a short drive from the village. Owning ground here means a stake in an authentic village setting, close to the life of the community and within reach of the landscape that surrounds it.

The sale is for a 1/4 share of the field. A piece of village-centre land in Mosfili, best appreciated for its setting and its residential purpose.
