For Sale : **€ 1,700**

**Description**
Imagine stepping out of your own front gate and straight into the pine-scented trails of the Troodos National Forest Park. This piece of residential land sits right beside the park, on elevated ground in the mountain village of Amiantos, a setting with real character and a closer connection to nature.

The 645 m² plot has a regular shape and gently uneven ground that follows the natural lie of the hills. It has direct road access, and its residential zoning points to a home of your own here, surrounded by trees and fresh mountain air, with cooler summers that offer a welcome retreat from the heat of the coast.

Daily life is easy. The village centre is a short drive away, along with schools, supermarkets, cafés, restaurants, a pharmacy and medical care. Neighbouring villages such as Pelendri are close by, and the main roads are within reach for trips down to Limassol.

Amiantos offers authentic Cypriot village life at a slower pace, rooted in a landscape that changes with the seasons. This sale is for a one-fifth share of the land.

With the forest park as your neighbour, the Troodos mountains are on your doorstep every day.
