

For Sale, Land, Field, Nicosia, Kakopetria, 6,260m²

Forest on one side, mountain village life a short drive away...

For Sale : **€ 125,000**

Description
Forest on one side, mountain village life a short drive away. This residential field in Kakopetria sits right beside Troodos National Forest Park, in a landscape-led setting away from dense urban development.

The land covers a generous 6,260 m². Its sloping, irregular shape follows the natural lie of the hillside. Residential zoning makes this a place to plan a home, shaped around the contours and the green surroundings.

Restaurants and cafés are within walking distance. The village centre, a medical centre or pharmacy, petrol stations and parks are a short drive away, with supermarkets, a school and the main roads a little further. Nearby Karvounas adds to the feeling of authentic Cypriot village life in the Kakopetria area.

Cooler summers in the hills and the forest right next door make this a setting that stays with you long after you leave.
