For Sale : **€ 135,000**

Description
Agios Georgios is a settled corner of Latsia, an established Nicosia suburb where schools sit within walking distance and daily life carries on close to home. Here, a large field of 44,700 m² lies mostly within a residential zone, with room for a home in a neighbourhood that already feels lived in.

Imagine a future home here, where the school run could be a simple walk and Lakatameia is only a short drive away. The land has direct road access, and the Nicosia–Limassol motorway runs within walking distance, so getting around the district starts right on the doorstep.

Part of the land falls within a protection zone, and a high-voltage pylon stands on the field. The rest is an uncomplicated stretch of residential land in a familiar town setting, with schools close by and the wider district within easy reach.

The sale is for a 1/12 share of the field.

A residential setting in Latsia, with schools a walk away and a home of your own still to be imagined.
