For Sale : **€ 105,000**

Description
Kato Pyrgos is a coastal village with a slower pace and a close-knit community. This residential field lies a short way inland from the coastline and close to the village centre, so both the sea and village life are part of its setting.

The land covers 12,894 m² of sloping ground with an irregular outline. Its residential zoning gives room for a home, with the coast close by and the gentle rhythm of a village around it. Cafés, restaurants and shops are found in the village, and the Gialia Monastery is among the heritage sites in the wider region, waiting for unhurried afternoons of exploring.

The land has no direct road access. Part of it lies within the UN buffer zone. The land is currently occupied.

Sizeable, close to the sea and a short way from the heart of Kato Pyrgos, it is a broad piece of this coastal village to make your own.
