For Sale : **€ 54,000**

Description
High in the Limassol hills, Pelendri offers authentic Cypriot village life, with cooler summers and a slower pace. This generous field of 6,375 m² sits on sloping, elevated ground zoned for residential use, a setting that lends itself to a home shaped around the landscape.

Everyday life is close at hand. Restaurants, cafés and schools are within walking distance, as is the heritage site of Timios Stavros. The village centre, petrol stations and green spaces are a short drive away. Supermarkets, medical centres and the main roads are a drive away. The neighbouring villages of Potamitissa and Dymes are also a short drive from the land.

The plot has a regular shape and direct road access, which keeps things uncomplicated. Beyond the village, the forests of Troodos National Forest Park are only a short drive away, bringing nature into everyday life.

This sale is for a half share of the land.

Residential land in the hills, with village life on its doorstep and the forest beyond.
