

For Sale, Land, Field, Nicosia, Pyrgos Kato, 3,949m²

Sea air and village life meet on this coastal field
in Kato...

For Sale : **€ 11,000**

Description
Sea air and village life meet on this coastal field in Kato Pyrgos, a generous stretch of residential land set just back from the shoreline. It is a setting shaped by outdoor living and the Cyprus climate, with the water close by and a traditional coastal community all around.

Zoned for residential use, the land gives you room to picture a home of your own in authentic village surroundings. Everyday needs are well covered. A petrol station is within walking distance, and the village centre, supermarkets, shops, restaurants and cafés are a short drive away. The neighbouring villages of Pano Pyrgos and Pigenia are close by. Further afield lie Gialia Monastery and the Cyprus Mouflon Enclosure, two reminders of the region's heritage and wild landscape.

The land has an irregular shape and a sloping surface. This sale is for a one-third share of the land.

Above all, it is the nearness of the sea that stays with you, with life by the water just beyond your doorstep.
