Description
Olive trees already grow across this level stretch of residential land in Analiontas. It sits in a quiet, purely residential part of the village, surrounded by a beautiful natural environment. If you are searching for buildable land in Analiontas, this field offers a generous canvas with real character.

At 5,872 m², there is plenty of room to plan a family home around the existing trees, and the flat surface makes the layout easier to picture. The residential zoning points clearly to a home in a relaxed rural setting, away from dense urban development.

Daily life stays practical. The village centre, schools, restaurants and cafés are a short drive away, as are the neighbouring villages of Kataliontas and Kampia. Supermarkets, petrol stations and public service offices are a drive away, and the motorway between Nicosia and Limassol is within easy reach.

A free afternoon could take you to Tamasos Lake, a short drive away. Then you come home to open space, your own olive trees and the slower pace of authentic Cypriot village life.
