Description
On the outskirts of Peristerona village in the Nicosia district lies this agricultural field of 3,011 m². The land is flat and rectangular, a regular shape that is practical to lay out and work, and it is reached by a dirt road. It sits a short way from the village centre, and the road linking Peristerona with Akaki runs not far away. Zoned for agriculture, the field can be used for planting and cultivation or kept as a holding of farmland close to the village. It is a level, well-shaped plot of agricultural land in Peristerona.
