Description
In the farming countryside of the Politiko community, in Nicosia District, this agricultural field covers 2,007 m² in an area set aside for livestock farming. The ground slopes, and the plot has an irregular shape that follows the land around it. The land has no direct road access.

Klirou is the neighbouring village, and Kalo Chorio Oreinis also lies in the same rural area. This is a sloping piece of livestock land within the wider Politiko farmland.
