Two adjoining fields in the countryside of Kampos
come toget...

For Sale : **€ 6,000**

Description
Two adjoining fields in the countryside of Kampos come together here as a single piece of agricultural land of 5,798 m². The ground slopes gently in places and has an irregular shape. A pathway runs along one boundary, and the main road through the village lies close by.

The village centre and neighbouring Tsakistra are both a short drive away. Zoned for agriculture, the land suits farming or planting in an open countryside setting away from dense development. Together, the two fields form one versatile, uncomplicated piece of Kampos farmland.
