Description
Set in open countryside on the edge of the village, this field in Pano Pyrgos offers 4014 m² of agricultural land for farming or planting. The ground has a smooth surface, and the plot has an irregular shape. It sits in a landscape-led setting away from dense development. The field has no direct road access.

The village centre and a petrol station are a short drive away, as are the neighbouring villages of Kato Pyrgos and Pigenia. This is a versatile piece of land in the Nicosia district countryside. It is a plain, even plot of agricultural ground ready to be cultivated.
