

For Sale, Land, Field, Nicosia, Astromeritis, 2,128m²

Village life in Astromeritis unfolds around this level field...

For Sale : **€ 19,000**

Description
Village life in Astromeritis unfolds around this level field, set within a residential area close to the local primary school. The village centre is only a short drive away, so everyday errands and a coffee with neighbours stay part of the daily rhythm.

The land is regular in shape and flat, with direct road access along one side. Its residential zoning means there is room for a home here, on ground that is easy to picture as a family base within a Cypriot village community.

Imagine the school run as a brief trip down the road, and weekends spent close to familiar faces in the village. For anyone who wants to put down roots in the Nicosia countryside, it offers a simple, practical starting point.

The sale is for a 1/4 share of the field.

Level land, a residential setting and a village close at hand: a straightforward place to start shaping a life in Astromeritis.
