A short way from the centre of Agridia, this residential fie...

For Sale : **€ 10,000**

**Description**
A short way from the centre of Agridia, this residential field sits within easy reach of village life. Mornings can begin with coffee in the village square and end back on your own patch of sloping ground at the edge of the community. Across 4,348 m², the land gives a real sense of space and a setting rooted in one of Limassol's mountain villages. Most of the field lies in a residential zone, with room for a home, while a small part falls within a protection zone. The land has an irregular shape and no direct road access. Beyond Agridia itself, the neighbouring villages of Chandria and Dymes are a short drive away, so the wider area opens up for walks, visits and everyday errands. The sale is a 1/5 share of the field. For anyone drawn to village surroundings, this is a chance to own ground close to the heart of Agridia, where the community centre and the rhythm of local life are never far from home.
