For Sale : **€ 155,000**

Description
In the heart of Aglantzia, an established suburb with a real neighbourhood feel, this 607 m² residential plot puts daily life within easy reach. Schools, supermarkets, cafés, restaurants, pharmacies and medical centres are all within walking distance, and there is a sports venue close by too.

Buildable land in a popular central area like this ticks the practical boxes: a regular shape, a level surface and direct road access. Its residential zoning points naturally to a home designed around the way you want to live. An old ground-floor building stands on the land and is considered obsolete.

Getting around is simple. Main roads and motorway junctions are a short drive away, as are parks and green spaces, with Nicosia city centre and Strovolos also close at hand.

A central address, sensible proportions and the scope for a home of your own make this an appealing balance of location, function and flexibility.
