For Sale : **€ 7,000**

Description
In the hill village of Agros, this residential field for sale offers a calm, uncomplicated start for a home of your own. The setting has authentic Cypriot village character, with its life and traditions close at hand.

The land covers 660 m² and has a regular shape and an even surface. That makes it a straightforward canvas to plan around, with no awkward corners or slopes to work against. It also has direct road access, which keeps everyday arrivals simple. As residential land, it suits a family home shaped to your own taste.

Daily needs are a short drive away: the village centre, supermarkets and shops, schools, medical centres and pharmacies, plus restaurants and cafés for unhurried evenings. Parks and green spaces lie close by, as do the neighbouring villages of Agios Theodoros and Agios Ioannis. Main roads are within reach when town calls.

Level, well-proportioned land in Agros, set in true mountain village surroundings, is the foundation for a slower pace of life in the hills.
