For Sale : **€ 175,000**

Description
For Sale | Residential Plot of 619 m² in Latsia, Nicosia – Ka7 Zone
A residential plot of 619 m² is available for sale in Latsia, Nicosia District, offering an attractive opportunity for individuals, families and investors seeking residential land with development potential in an established residential area.
The property features frontage along one side and access to a registered road, providing a practical setting for residential development. Its generous land area offers flexibility in architectural planning, making it an interesting option for buyers considering the construction of a spacious private residence or another residential project, subject to the necessary planning approvals.
The plot is currently under subdivision, an important consideration for prospective purchasers. The final boundaries, access arrangements and issuance of a separate title deed will depend on the completion of the subdivision process and the relevant approvals.
The property falls within the Ka7 residential planning zone, with a building density coefficient of 80% and a coverage ratio of 45%. Based on the total area of 619 m², the building density coefficient corresponds to an indicative maximum buildable floor area of approximately 495.20 m², while the coverage ratio corresponds to an indicative maximum ground coverage of approximately 278.55 m². These calculations are theoretical and remain subject to applicable planning regulations, subdivision requirements and the necessary approvals.
The combination of its 619 m² land area, registered road access and residential planning characteristics offers attractive possibilities for designing a comfortable home with generous indoor living spaces, a garden and practical outdoor areas.
Situated in Latsia, the property benefits from its location within the wider Nicosia residential area, offering access to schools, supermarkets, pharmacies, shops and other essential everyday amenities.
Important points of interest in the wider area include Latsia Municipal Centre | Nicosia General Hospital | Mall of Cyprus | Athalassa National Forest Park | University of Cyprus.
Combining its generous land area, Ka7 residential zoning, 80% building density, 45% coverage ratio and access to a registered road, this plot represents an appealing opportunity for buyers and investors seeking residential land with future development potential in Latsia.
