For Sale : **€ 18,000**

Description
On the edge of village life yet a short drive from the Nicosia–Larnaca motorway, this field on the market in Lympia, Cyprus, sits where everyday convenience and a strong local identity meet. Supermarkets and shops are within walking distance. Schools, cafés, restaurants and neighbouring Dali are all close at hand.

The land covers 609 m² in a neat rectangular shape with an even surface, so there are no slopes to work around. It holds a corner position with direct road access, and a sidewalk runs along one side, which gives it a tidy, approachable presence from the street.

The zoning is part commercial and part residential, so the plot can serve business use, a home, or a thoughtful combination of the two. In a growing community like Lympia, that flexibility is worth considering.

A level, well-proportioned corner plot with good links to the capital and to Larnaca, offering an uncomplicated mix of location, function and choice.
