

For Sale, Land, Plot, Nicosia, Lakatameia, Agios Nikolaos, 534m²

A quiet, attractive corner of Agios Nikolaos in
Lakatameia s...

For Sale : **€ 124,000**

Description
A quiet, attractive corner of Agios Nikolaos in Lakatameia sets the scene for this residential plot, a chance to build a home to your own specification on land zoned for exactly that. The ground is level and the plot has direct road access, so planning your layout should feel straightforward from the first sketch.

At 534 m², the plot gives you a sensible footprint for a private house. It sits within a new residential plot division where the construction works are complete, in an established suburb with a real neighbourhood feel. You have control over layout, materials and specification, whether your taste runs to contemporary lines or a more traditional look.

Everyday life here is easy. Sports venues are within walking distance. Schools, supermarkets, cafés, parks and a pharmacy are all a short drive away. Strovolos and the motorway are also close by for wider Nicosia. This sale is for a share of the land.

A calm Lakatameia setting, level ground and the freedom to shape a family home around your own brief.
