For Sale : **€ 8,000**

Description
Parks and green spaces lie right beside this compact residential plot on the market in Kampos, Cyprus, a village with a slower pace and a close-knit community. The village primary school is within easy reach, and neighbouring Tsakistra is only a short drive away.

The land covers 56 m² on a sloping, irregularly shaped site with direct road access. Set on residential land, it offers the groundwork for a home shaped around your own priorities, with control over layout, materials and finish. An old single-storey house stands on the plot; it is obsolete and has no economic value.

Beyond the village, some of the island's most treasured places are within a drive. Kykkos Monastery, the nature spot of Tripylos and the Cyprus Mouflon Enclosure all make easy outings, with restaurants and cafés also within reach for relaxed days out.

This is a small foothold in authentic Cypriot village life, rooted in a setting with a strong local identity, with green space on one side and the heritage of the region all around.
