

For Sale, Land, Field, Nicosia, Kampos, 4,776m²

Green spaces lie right beside this residential field
for sal...

For Sale : **€ 43,000**

Description
Green spaces lie right beside this residential field for sale in Kampos, a village with real mountain character in the hills of Nicosia district. Life here moves at a slower pace, among a close-knit community and wooded countryside that feels a world away from the city.

The land sits within the village, on a sloping, irregular site with direct road access. Its residential zoning opens the way to a family home in authentic village surroundings, where the layout can follow the natural fall of the ground.

Everyday life is uncomplicated. Neighbouring Tsakistra is a short drive away, and restaurants, cafés and a public service office are within easy reach by car. Further out, the historic Kykkos Monastery, the Cyprus Mouflon Enclosure and the nature spot of Tripylos bring heritage and forest walks into your weekends, while main roads and a bus station serve the wider region.

This sale is for a half share of the land. A place to put down roots in the authentic side of Cyprus, with the hills of Kykkos all around.
