

For Sale, Land, Field, Nicosia, Latsia, Agios Georgios, 2,648m²

Schools, supermarkets and shops are all within
walking dista...

For Sale : **€ 45,000**

Description
Schools, supermarkets and shops are all within walking distance of this residential field in Agios Georgios, Latsia. It sits in an established suburb with a neighbourhood feel on the edge of Nicosia. Restaurants and cafés are right next door, while petrol stations, public service offices and a park are only a short stroll away.

The land is flat and almost regular in shape, with direct road access. Its residential zoning suits a home in a setting where daily life runs easily. At 2648 m², the field is a generous and uncomplicated canvas.

Beyond the immediate neighbourhood, Strovolos, Nicosia General Hospital and the nature around Athalassa Lake are a short drive away. There is easy access to the Nicosia–Limassol motorway. A bus station, sports venues and medical services are close by too, so every part of the week is well covered.

This sale is for a one-sixth share of the land.

Level ground, a residential setting and everything you need around the corner make this a well-placed piece of Latsia.
