For Sale : **€ 1,000**

**Description**
A small agricultural field in Polystypos, in the Nicosia district, lies close to the village, with the village centre within walking distance. The land measures 298 m² and has an irregular shape with a smooth surface. That makes it workable ground for planting or small-scale cultivation in line with its agricultural use.

The neighbouring villages of Livadia and Alithinou are a short drive away, as are petrol stations, and the Astromeritis–Evrychou road serves the wider area. The field has no direct road access.

This is a compact, uncomplicated piece of farmland with an even surface near Polystypos village.
