

For Sale, Land, Field, Paphos, Fyti, 2,676m²

Authentic Cypriot village life is on the doorstep
with this...

For Sale : **€ 17,900**

Description
Authentic Cypriot village life is on the doorstep with this residential field in Fyti, a short stroll from the village centre, where restaurants and cafés sit within walking distance. It is an unpretentious, landscape-led corner of the Paphos district, well away from dense urban development.

The land is level and almost rectangular, with a total plot area of 2676 m² and direct road access. Its residential zoning points to a home, and the simple shape makes planning one an uncomplicated prospect.

Life here moves at a slower pace, yet everyday needs remain manageable. Schools, parks and green spaces are a short drive away, with supermarkets, shops and a petrol station a little further. The neighbouring villages of Milia and Lasa are close by, and the Kannaviou Reservoir offers an easy outing into nature. Main roads, bus stations and motorway junctions can be reached across the wider region.

This sale is for a half share of the land.

Flat ground, a residential setting and a village with a strong local identity just steps away make this a place where a home could feel rooted in the authentic side of Cyprus.
