

For Sale, Land, Plot, Nicosia, Dali, Ag Konst and Elenis, 530m²

For Sale : **€ 118,000**

Description
For Sale | Rectangular Residential Plot of 530 m² with Large 22.20-Metre Frontage in Dali, Nicosia
An attractive rectangular residential plot of 530 m² is available for sale in Dali, Nicosia District, offering an excellent opportunity for buyers and investors seeking residential land with generous frontage, registered road access and favourable planning coefficients.
The property stands out for its regular rectangular shape and impressive frontage of approximately 22.20 metres, offering flexibility for the architectural design of a future residence. Its practical configuration provides opportunities for creating a modern family home with comfortable indoor and outdoor living spaces.
A significant advantage of the plot is its access via a registered road, ensuring connectivity to the surrounding road network and making it a practical option for future residential development.
The property benefits from a building density coefficient of 60% and a coverage ratio of 35%, providing attractive planning parameters for the construction of a private residence or another permitted residential development.
Based on its total area of 530 m², these coefficients correspond to an indicative maximum buildable floor area of approximately 318 m² and an indicative maximum ground coverage of approximately 185.50 m², subject to applicable planning regulations and necessary approvals.

Located in Dali, within Nicosia District, the property offers access to the amenities and services of the wider region. Important points of reference include Dali Town Centre | Latsia | Geri | University of Cyprus | General Hospital of Nicosia, connecting the area with neighbouring residential communities, educational institutions and essential services.
The combination of its 530 m² land area, rectangular configuration, substantial 22.20-metre frontage and registered road access makes the property an appealing choice for buyers wishing to construct a modern family residence.
With its 60% building density, 35% coverage ratio and location in Dali, this residential plot represents an attractive opportunity for both private buyers and investors seeking land with future development potential.
