For Sale : **€ 85,000**

Description
High on elevated ground, a short walk from the heart of Mathiatis, this residential field looks out over some very beautiful views of the surrounding area. Picture standing here as the light changes across the landscape around you, with the village and its everyday life close at hand.

The field extends to 15,385 m² in total and lies in a residential zone, where homes of up to two floors may be built. A dirt road leads to it. The raised position and the outlook it brings are what set this land apart, giving any future plans a setting with a real sense of openness.

Life here keeps the gentle rhythm of a village. The centre of Mathiatis is within walking distance, neighbouring Lythrodontas is a short drive away, and the motorways linking Nicosia, Larnaca and Limassol are a drive away. It is the authentic side of village living, with the wider island still within reach.

The sale is a five-sixteenths share of the field, about 4,808 m². High ground, wide views and a village on the doorstep make this land well worth a visit.
