For Sale : **€ 120,000**

Description
Village life in Kato Pyrgos sets the tone here: a two-bedroom, ground-floor house standing on a large residential field, with shops, cafés and the village centre a short drive away.

The home is laid out on a single level, with one bathroom and parking for a car, and the land around it gives a real sense of open space. The residential zone allows building on up to two floors, so the field offers scope to shape a home of your own around it.

When you want a change of scene, Gialia Monastery is a drive away, and the neighbouring villages of Pigenia and Agios Theodoros Tillirias are close by.

The sale is a share of the field, covering 5,238 m² of its 9,191 m² in total. Under a distribution agreement, this share is a defined part of the field that includes the house. A home on its own land in Kato Pyrgos, well worth a visit.
