Description

Small Development and High-Value Living

The Foundation of Your Future. This residential plot in Pera Chorio Nisou represents a strategic opportunity for those looking to balance high-yield potential with the comforts of a quiet, established neighborhood. Falling within the Ka6 planning zone, the property offers a substantial building density of 90% and a 50% coverage factor, making it exceptionally versatile for either a large, high-specification family residence or a small-scale multi-unit development. In March 2026, the local market is particularly strong following the landmark January 1st tax reform, which fully abolished stamp duty on all new property contracts and removed the Special Defence Contribution on rental income, significantly enhancing the net return for investors and homeowners alike. Furthermore, the 2026 market is supported by the 6th Edition of the Housing Scheme for the Revitalization of Specific Rural Areas, which launched on March 2, 2026, providing significant financial incentives for primary residence construction in the Nicosia district. The plot's favorable positioning and access to essential infrastructure ensure a secure and appreciating investment, a standard of quality we have prioritized for 3 decades of experience.
