Description
Set a little way from the village centre of Pano Deftera, this 20,068 m² agricultural field has a flat surface and lies within a livestock area. Access is by a registered pathway, and the Nicosia–Deneia motorway is easy to reach from the area. Agioi Trimithias is the nearest neighbouring village.

Local planning policy allows photovoltaic installations on this land, subject to specific siting conditions, and electricity transmission lines run close by. This is a sizeable, level parcel for farming use or, within that policy, a solar installation.
