For Sale : **€ 210,000**

Description
Cafés and restaurants sit right beside this three-bedroom apartment in Chryseleousa, and the main commercial avenues of Strovolos lie close by. Everyday Nicosia life unfolds within easy reach of the front door.

On the second floor of a three-storey building, the home centres on an open-plan living and dining room, a natural gathering place for family meals and relaxed evenings with friends. The kitchen has its own secondary dining area, handy for unhurried breakfasts. Three bedrooms, a shared bathroom and a separate guest toilet complete a practical layout across 106 m².

Two covered verandas carry life outdoors. They offer a sheltered spot for a morning coffee or for unwinding as the day winds down. An uncovered parking space on the ground floor comes with the apartment.

Schools, including the English School, are within walking distance, so the school run can be done on foot. Parks and green spaces nearby add room to breathe. It is a comfortable family home at the heart of a residential neighbourhood where so much of daily life is close at hand.
